**Summary of Legislation:** (Amended) This bill sets forth certain safety and health requirements that an abortion clinic must meet. It also requires the State Department of Health to inspect an abortion clinic at least one time per year.

**Effective Date:** July 1, 2006.

**Explanation of State Expenditures:** (Revised) The provision requiring an annual inspection would require a revision of the existing licensure regulations which should be accomplished within the existing level of resources available to the Department. (Currently, the rule being promulgated by the Department requires an on-site inspection of an abortion clinic every two years.) Additional survey costs that may be incurred by the Department would be dependent upon individual circumstances.

*Appropriation Background:* The Indiana State Department of Health administrative appropriations were made from the dedicated Tobacco Master Settlement Agreement Fund for FY 2006 and FY 2007. Revenues from fees and penalties collected by the Department are deposited in the state General Fund with augmentation allowed in amounts not to exceed the additional revenue from fees or penalties received after July 1, 2003.
